

**PARAGON MORTGAGES PRESS RELEASE  
19 APRIL 2013**

## **PARAGON LAUNCH ANDROID CASETRACKER APP**

Following the launch of its popular i-phone CaseTracking app earlier this year, Paragon Mortgages has launched an android version for intermediaries.

The app is the first of its kind and has been designed to make it easier for intermediaries to keep track of their submitted buy-to-let applications and progress them whilst out of the office, using a variety of devices.

Using the latest technology the app enables intermediaries to:

- Manage their Paragon Mortgages and Mortgage Trust cases
- Check the status of their applications
- Identify any issues quickly
- Update information or contact Paragon directly from the app

Paul Clampin, Director of Underwriting, said: "The feedback from intermediaries following the launch of the Apple CaseTracker app has been great, and we hope that people are going to find the android version just as useful for managing their applications whilst on the move.

"Key features of the app include the ability to respond to queries or information requests against applications, and the provision of updates on the status of applications. The app's primary function is to make the intermediary's business life easier.

“In the last quarter 85% of all applications have been submitted to us online, which shows the way intermediaries are doing business is changing. Submitting applications via the Mortgage Trust and Paragon Mortgages websites is quick and easy, and I expect we will see more business coming through in this way.”

The android version of Paragon Mortgages’ CaseTracker app can be downloaded from [Google Play](#)
